### Theme: "How Architects Should Be Procured"

#### Questions:

- 1-1. In your country, is the selection of an architect for a public building determined solely by the lowest bid?
- 1-2. If architects are selected solely on the basis of low design fees, please let us know to what extent this is customary in your country.
  
- 2-1. Are there any laws in your country regarding the selection of architects for public buildings?
- 2-2. Please provide the name of the law, if any, and the year it was enacted.
  
- 3-1. Please provide any additional explanations you can provide regarding the selection of designers for public buildings in addition to the answers above. For example, provision of opportunities for young architects, movements to improve procurement of architects, or how to set up standards of selection of architects.
